

.. podcast yourself ..

## Classes Offered

### Podcast 101

General information about podcasts, including getting a podcast from the web onto your computer and iPod.

### Your Creative Genius

What good it is to know how to use the technology, if you haven't a clue what to say on air? We'll help you come up with ideas, and get you started on developing your program.

### App-titude Test

Introduction to a variety of applications used in podcasts, including software used for recording, uploading, and downloading. We'll also show you some sites to help you get more subscribers!

### The Goods

We're finally gonna show you what we're made of! We'll show you what equipment we have and teach you how to use it the right way!

Teen Tech Week  
March 4-10

A What-cast?

Think of it as an internet radio show that can star anyone from your favorite comedian to your cat, Mr. Sniffles\*

Our podcasting studio features state of the art equipment. We'll show you how to use it so you can create your own show or help out with the library's teen podcast.

Speaking of the studio, it needs a name, and we're having a contest to come up with one! Submit your entries, cast your vote, and the winning entry will get a BRAND NEW IPOD!

Teen Tech Week  
March 4-10
